Permit # 15-00769 Existing nonconforming sign removed and new sign erected and permit final.

It was noted by owner that sign was 2 feet shorter in height than allowed and 2.5 feet farther back from property line than allowed.

Since original permit was final, owner applied for a commercial alteration permit #15-01365 and work is currently underway to raise sign two feet and move closer to allowed set back on front property line.
