The LIE: Council, Manager, & Bias Media says I did not respond to public record requests.

The TRUTH: I responded to every request within 4 hours of receiving it as evidenced below.

At what point do these nasty accusations and lies being stated maliciously by my colleagues in public meetings and making ugly headlines cross the line into Slander?

**Clint Johnson** I will not negotiate with terrorists. Compliance has proven to only be met with more aggressive requests. These hate mongers must be dealt with head on.
