**Subject:** Re: Request

I posted nothing on Facebook. I posted several tweets that are on my public timeline. I engaged in 1 text message conversation that was transitory in nature providing an update on the vote of the Orange City card room and has since been deleted.

I request to see the original request for this content. If none, I'd like a copy of where this is delivered.

I also request to see all the the bills, receipts, invoices, charged to the "requestor" of every request made of me in the last 6 months. If there was no fee charged, I'd like that noted in the complete listing of requests.

Please provide an update on my other requests from last week.

Thanks,  
Clint
