# WELCOME TO DeBARY

**WELCOME and thank you for making DeBary your new hometown.** It is an exciting time to live in DeBary, as we continue to grow and adapt, while creating innovative concepts incorporating our unique assets; a historic river front city with the only SunRail stop in Volusia County, straddling Volusia and Seminole Counties. Our demographics, moderate tax climate, and low crime rate all contribute to making DeBary a great place to live.

DeBary enjoys one of the lowest ad valorem tax rates in Volusia County. The City contracts for police, fire, and animal control, which keeps costs low while providing high quality service.

DeBary boasts some of the most diverse and enjoyable activities for those looking for outdoor adventures. From kayaking, canoeing, hiking, and biking, outdoor enthusiasts will find it all here in DeBary. With 12 parks, including beautiful Gemini Springs, and three regional trail systems providing access to over 600 miles of trails, residents will find plenty to do in DeBary.

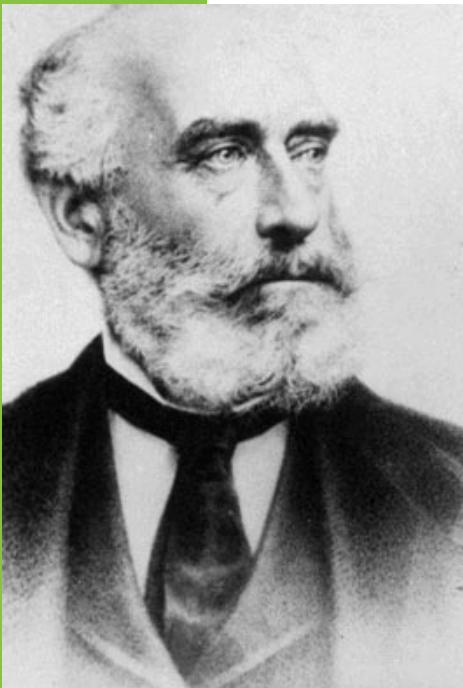

Our new Main Street Development is being built right along the trails and will provide even more amenities for trail users. And our Riverbend South conservation property, which we hope to acquire in 2022 with Florida Forever and Volusia Forever funding, will extend our trails right to the river with a two-mile riverfront trail.

A community that emphasizes quality of life and quality of services, DeBary stands out in terms of distinctive character, charm, and resources. It is the ultimate in small-town living with friendly citizens, sunny climate, and an open-door City Council; a town that is progressive yet has retained its unique southern charm. This year will be pivotal for DeBary. As we continue to focus on eco-tourism and extend our trails, we look forward to hosting even more trail enthusiasts and all others to DeBary, to discover that DeBary, Naturally, is more than you imagined!

# History of DeBary

The City of DeBary was incorporated on December 31, 1993, and covers 25 square miles. It is bounded by the St. Johns River to the west, by Lake Monroe to the south, by the City of Deltona and Interstate 4 on the east, and by the City of Orange City on the north. The City of DeBary was named for an early settler, Samuel Frederick de Bary (1815-1898) who built a hunting lodge known as DeBary Hall. The St. Johns River has been important to the development of DeBary. It is one of the few rivers in the United States that flows north. The River was the water highway for explorers. With the onset of the steamboat lines, people headed inland from the River and developed farms and plantations, villages sprang up, and new businesses were created to support the steamboat industry. The Steamboat era would greatly contribute to the development of DeBary and the State of Florida.

The de Bary family spent winters at the Hall where they hunted, fished, and explored the River by boats and the land by horses and hunting wagons. They entertained European royalty, American presidents such as Chester A. Arthur (American President from 1881 to 1885), military, actors, and wealthy friends.

Today, visitors are invited to visit the vacation home of Frederick de Bary at the DeBary Hall Historic Site (198 Sunrise Blvd.). DeBary Hall offers tours and events for visitors who are curious to learn about the DeBary family and the early settlers within the City. For more information call (386) 668-3840.

# Lock it to STOP it

Car thieves, like home burglars, look for easy targets. Too many vehicle owners obligingly leave doors unlocked, windows open, or their keys in the vehicle. Criminals usually do not want to be seen, heard, or take an excessive amount of time to break-in.

You might think it won't happen to you. Most victims of vehicle burglaries and thefts thought the same thing when they left their doors unlocked. Don't sacrifice security for a few seconds of convenience!

## Don't give 'em the chance

Lock your vehicle, take your keys with you.

Park in a garage whenever possible.

Activate your alarm.

Never leave valuables in plain sight.

Remove your garage door remote

For truck owners, lock your vent windows. When equipment or tool must be kept in vehicles, use a strong-walled, tamper-proof box that can be bolted and secured.

Leave only your ignition key when your vehicle is serviced.

Remove spare keys hidden in/on your vehicle (consider your wallet or another location).

At work, and in commercial areas, try to park in well-lit areas, close to entrances, and near pedestrian traffic.

Know your Vehicle Identification Number (VIN).

Carry a copy of your registration in your wallet or purse in case of theft.

Place additional identification marks on your vehicle - e.g. on the tailgate, spoiler, under the hood.

Take a photo of your vehicle with a license plate visible.

25% of vehicle theft had purses/wallets in plain sight

50% of stolen cars are unlocked at the time of the theft

1 in 8 have keys left inside
