

QUARANTINE OLYMPICS

DAY 3 - Wednesday, May 6th

Straw Challenge 3: In this event you will need straws and ping pong balls. This can be 2-4 players at a time. Each player gets a spot at the table across from the other players. One straw is placed on the table in front of each player and is their "Goal". The other straw is in the players mouth used to blow the ping pong ball. Start the ping pong ball in the middle of the table. The object is to blow the ping pong ball and hit other players goal. The person that gives up the least amount of goals wins. If the ball rolls off the table start it back in the middle. Players cannot move from their seat. Add more than one ball at a time to make it interesting! You can time this or do a tournament to a certain point total to determine the winner!

The Sock Slide: This one has to be done on tile or wood floors. Get in your socks and mark a start a start line. Take a short running start and slide at your start line. The person who can slide the farthest without falling wins. If you don't have a hard surface find something with wheels like a skateboard and roll over carpet on your stomach. BE SAFE WEAR PROTECTIVE GEAR IF NEEDED!

Cup Stacker: Get at least 10 plastic cups. Start with them stacked together. When the time starts, unstack them into a pyramid and then take them down back to the way they started. Whoever can do it the fastest wins. Get creative and do several rounds, stacking the cups a different way each time!
